DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Sunday, 29 November 2020 at 05:28 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Areas of Moderate air pollution, perhaps High later on in the day, are likely to develop near industrial areas across eastern England, due to light winds allowing the build-up of locally emitted pollution. Generally Low elsewhere in the UK.

Tomorrow: Weather conditions are expected to be breezy on Monday, allowing Low air pollution levels across the whole of the UK.

Outlook: Air pollution levels are expected to remain Low across the UK during this period, except perhaps on Tuesday where pockets of Moderate pollution may develop around busy roads under light winds.
